FUNDRAISING AND SERVICE HOURS

The actual cost per student needed to operate the school is \$7,000.00. In order to help cover this cost, yet provide financial relief to families, the school offers a greatly reduced tuition and registration cost to parents. The school also requires families to provide fundraising and service hours as part of their overall tuition to help come a little closer to the actual cost of the student. While the school also seeks out grants and community support to meet the gap, the fundraising and service hours provided by each family are vital to the quality of our school's education.

During the course of the school year we offer monthly fundraisers to help provide fundraising opportunities for parents.
